#### **4. Individuals with Disabilities Education Act**

A child with a disability under Part B of the *Individuals with Disabilities Education Act* (IDEA) is described as a child evaluated in accordance with IDEA as having one or more of the recognized thirteen disability categories and who, by reason thereof, needs special education and related services. The Individualized Education Program (IEP) is a written statement for a child with a disability that is developed, reviewed, and revised in accordance with the IDEA and its implementing regulations. When nutrition services are required under a child's IEP, school officials need to ensure that school food service staff is involved early in decisions regarding special meals. If an IEP or 504 plan includes the same information that is required on a medical statement (see section 1, above), then it is not necessary to get a separate medical statement.
